

# 3/4 HOME LEARNING PROGRAM

Term Two Week Six

Dear Parents, Guardians and students,

As we draw closer to the end of our Remote Learning journey together please continue putting your best foot forward and participate in your learning as the excitement of returning to school grows. This week we are continuing our learning by including Webex meetings in our writing sessions. If you're unable to join our Webex meetings the information will be uploaded to Showbie shortly after our instructional meeting has concluded. In maths we are finishing up our addition strategies unit by identifying the important information in word problems and using the addition strategies we have just learnt to work out the answer. In ERP we are finishing up our Australian History Unit and will be creating a project of your choice for the explorer you have chosen to investigate, the way you present your project is up to you, it could be a speech, diorama, poster or any other idea you come up with. Keep up all of the great work and as always, I am contactable through email ([meek.rebecca.v@edumail.vic.gov.au](mailto:meek.rebecca.v@edumail.vic.gov.au)), dojo or Showbie.

Thanks for all of your hard work,

Mrs. Meek
