

HOME LEARNING PROGRAM

Term Three Week 7 starting 24th August

Hi Everyone,

Welcome to Week 7. I hope everything is going well and that you have been able to establish your own schooling routine at home.

- Continue to encourage your child to be as independent as possible.
- Get them to read their daily planner and tick off each completed task.
- After they have finished a task, check-in with them.
- Get them to check the activities ✓ set on their DoJo page and show them how to submit their work by themselves.
- Congratulate them on their effort and independence.

Literacy: For the next two week we are learning about persuasive texts. These texts aim to persuade and convince the reader about a particular point of view. Generally, kids are pretty good at this technique!

Mathematics: Our focus this week is addition. We will be practising recalling simple number facts and learning how to partition numbers to help us add bigger numbers. Partitioning is when we see a whole number as two parts e.g. 10 is 8 and 2, 19 is 10 and 9, 234 is 200 and 30 and 4.

Investigations - This week the activities are about the planets in our solar system.

Please do not hesitate to contact me if you have any concerns or questions.
