

HOME LEARNING PROGRAM

Term Three Week 8 starting 31st August

Hi Everyone,

Welcome to Week 8. Hang in there! Hopefully we are getting closer to resuming normal school days!

- Continue to encourage your child to be as independent as possible.
- Get them to read their daily planner and tick off each completed task and paste the sheet in their workbook.
- After they have finished a task, check-in with them.
- Get them to check the **activities** ✓ set on their DoJo page and encourage them to submit their work by themselves.
- Congratulate them on their effort and independence.

Literacy: This week we are continuing to learn about persuasive texts. This week, students can choose their own topic.

Mathematics: This week we will learn about the relationship between addition and subtraction and revise the concept of 'difference', as a way to solve subtraction problems.

Investigations - What else is out there in space?

Please do not hesitate to contact me if you have any concerns or questions.
